

Washington Aug. 18. 1841

Dear Sir

Yours of the 3^d of July came duly to hand with a petition for a Post office at the place mentioned in it. I lost no time in presenting it to the P. M. General, I understood an order would be immediately given to the P. M. at Milwaukee to make report to the Dep^t in regard to the case. Any thing that I can do farther to aid you in the object I will do with great pleasure.

I have no time, now, to look into the matters of business to which you allude. I will attend to them at the opening of the next session. There will be nothing lost by the delay.

I cannot answer your enquiry whether the appointment of Doty & some other officers was not made contrary to the wishes of Genl. Harrison. My impression is that when he had decided wishes upon such matters, those

wishes were not readily yielded.

Before this reaches you, you will have learned that the President has vetoed the Bank Bill. We shall, however, I think, pass a bill that the President will not veto. The maturing of such a bill will probably occupy us with other matters until about the 1st of September.

Let me be kindly remembered to your wife. I believe me to remain

Your sincere friend
William Stode
